

CLOSE SEASON WORKj

Winter rains made access difficult particularly around the popular Bear Lake with the surrounds deep in water. Improved drainage and stone pathways have done wonders and made access much better.

Swims have been repaired and improved on Shepherds Lake (Thanks to Peter Mardon)who has done a great job, for anglers benefit. The short supply of road plannings have brought a halt to more improvements.

KLAA would like to thank Ken Elmy for his efforts peg clearing at Pingle , Crooked Chimney (Where the road is currently in good order) and Neeps on the Middle Level, in s+addition to his work on the Cut Off Channel and Ten Mile. Thanks to for Additional help from Ian Baxter and Paul Goult.

Ashley has been toiling and cutting in many areas, ensuring the banks were ready for June 16

Resulting in over 200 pegs available for anglers.
