

A great moment as Ray Malle holds the 1st Division National trophy

Congratulations to the local team Diawa Tackle and Bates winning the Angling Trust 1st Division National on the Warwickshire Avon. A good result given the strength and sponsorship of many teams taking part. Teams from Peterborough, Hot rods (Huntingdon) Sensas Mark One (Wisbech) all involved. Time was there were 3 teams from the Kings Lynn area in such competitions.

The Ouse in great form this week on all methods. Continued and regular feeding the answer for the best nets. Saw several anglers fishing the slider and catching fish all day at all depths. This was once the go to float method before poles became the norm. A very enjoyable method to use too.

As autumn approaches hemp and tares often prove a good option, particularly for some better roach. I did notice the TM roach, are getting quite chunky, good if they stay around for the winter.

Still don't know where the big bream have gone but the grapevine has some caught either side of Modney Bridge.

Are the Bream here?

The most disappointing thing is that there seem few anglers on the bank along 3 miles or so of river. Particularly when the venue is fishing so well.

Popular Springside

Springside has been busy anglers have been enjoying catching some good carp.

Even more action on Shepherds Lake with numerous carp to 19lb, they tell me fishing around a third over. A few Tench and chub to and to the annoyance of many some sizeable bream to 7lb.

Bream still feeding reasonably well on Kings Lake, the water level is very low, although again on Sunday not a sole in sight.

As usually Bear lake busy and keeping everyone happy. I am told it's always very busy, but only 2 anglers there when I was round on Sunday.

Open Match Dates

September 7 Feeder only Open match Great Ouse and Middle Level

September 21 Pre. National Open Match Great Ouse and Middle Level

Details and to book in from Ray on 07843860737
