

The Gt Ouse just waiting for National Anglers

Huge match on local waters this Saturday with the Angling Trust Division 2 National on the Gt Ouse and Middle Level, using KLAA, Ely Beet and Saffron Walden AC waters.

Lots of work for the clubs involved all hoping the fish will join the party and make it a good match after all their efforts. 23 teams of ten all hoping for a good draw and more than a few fish.

The Angling Trust Facebook page gives all the details and information about the match, venue details and prospects put together with the help of KLAA match secretary Ray Malle.

Last Sundays Open on the Ouse was pretty hard going for many in the gin clear conditions, difficult to encourage the fish to stay and feed. Best pegs were above Modney Bridge where the event was won by Preston Innovations Matt Eason with 7 Kilo 500. Catches in this area made up of roach, perch and Tench. 5Kg 550 2nd.

Perhaps I jinxed it, when I said rain and flow should improve conditions Looking at the weather forecast and the news from the EDP, it suggested rain and storms over Norfolk, which didn't happen. Unfortunately, I was pitched up beside the Yorkshire Ouse at that time which was hammering through and on a Flood Alert.

Good luck to anglers fishing Saturdays match. I reckon the winner could come from the Middle Level; the question is which end? However, with the Ely Ouse sections in the mix and lots of fish being observed in that area a good catch is always on. With it being a team match anglers who can catch whatever fish is in front of them and get big team points can help see their team home. A big weight will win the individual trophy and give local anglers an idea where to fish next week.

Springside fishing well with lots of big carp reported.

Shepherds still up and down for carp but bream the majority of fish caught there. Very busy with hardly a spare swim some days.

Kings going well for bream. Still concerning that water levels are pretty low.

Kings Lake low water level of concern But the bream are happy

This Saturday September 27 Angling Trust Division 2 National taking place on the Gt Ouse and Middle Level. Fishing from 11am to 4pm.
